REPUBLICAN PARTY

Ex-Secy Garfield Urges That It
Fulfill the Pledges It Made
The People.

MUST CONTINUE TO GO AHEAD

Ex-Gov. Myron T. Herrick Arraigned
Administration for Gross
Extravagance.

Cleveland, O., March 24.—James R. Garfield, former secretary of the Tippecanoe club tonight urged the Republican party to "continue progressive."

He said in part: "We as a party have promised progressive legislation and the people are justly asking upon us for a fulfillment of the promise. They will not be misled with the inaction and make-shift legislation. The legislation must provide for such regulation over corporations by both nation and state as will safeguard public interest, prevent abuses, make more easy the enforcement of law against illegal or unfair business, and then fully protect corporations that obey the law."

"Today the average American demands that his party strive for the public good first; the party good second; his personal success of party leaders, he will support them when they strive for the common good; he will discard them when they fail so to do."

"We are again preparing for a general election. Parties and men respon-

able for the conduct of national and state affairs will be called to give an account of their stewardship and they will be judged by what they have done for or against the public welfare. That is the standard we should apply."

"We cannot deceive ourselves with the idea that people will be satisfied with the mere repetition of promises; they demand and are entitled to action. The Republican party owes its success to the fact that all its great achievements have been progressive and aggressive. While it has, in successive campaigns, urged its history as a reason for a renewed vote of confidence, it has placed its main strength on the fact that it looked to the future rather than to the past."

"Whenever any party fails to be progressive, that moment its usefulness begins to wane. It is the part of wisdom and courage to hold fast to a position gained as a vantage-point in a great campaign, but the chief benefit

MOTHER'S FRIEND
A LINIMENT FOR EXTERNAL USE.

One of the most valuable qualities of Mother's Friend is that it safe-guards the future health of the mother. It is a liniment to be applied externally to the body, the use of which lubricates the muscles and tendons, softens the glands and ducts, prevents lumps forming in the breasts, and relieves the pain, nervousness, nausea, and other troubles from which so many expectant mothers suffer. When Mother's Friend is used regularly it fits and prepares the system for an easy and natural consummation of the term. Women who massage with this great liniment are always saved much suffering when baby comes, and recover more quickly, and without ill effects. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers.

Anty Drudge Agrees with Nellie.

May—"Let's play washday, Nellie, and wash the dolly's clothes. We'll use this tin pail for a washboiler and I'll go put it on the kitchen stove to heat water."

Nellie—"Oh, no! My mama doesn't wash that way. She washes with Fels-Naptha in lukewarm water and she says it's lots easier."

Anty Drudge—"Nellie is right, children. The Fels-Naptha way is a long sight easier and better way of washing than boiling the clothes. It's more like play and saves clothes wonderfully."

The old-fashioned wash-boiler way of washing clothes is bad enough in Summer when it can be done out of doors.

In the Winter, when four walls keep in all the steam and all the nauseous odors so you have to stew in them, washing clothes that way is drudgery of the most disagreeable kind.

Are you foolish enough to continue it? You won't be when you have once done your washing the Fels-Naptha way in lukewarm water.

No boiling of clothes. No steam Turkish bath to redden and blotch your face. No smells. No back-breaking work.

Washing with Fels-Naptha in lukewarm water is just as pleasant in Winter as in Summer.

Try it next washday. All that's necessary is to follow simple directions printed on the red and green wrapper.

Try it for the flannels, woollens, colored clothes as well as the white things.

Be sure to get the genuine Fels-Naptha.

of such a position is lost unless it is used for further progress. This is the wide difference between the present day "stand-patter" and the "progressive."

The Republican party has already recognized the new order of things and taken the first steps in the progressive movement.

"The great majority of our people believe in this new order of things and demand that the Republican party continue to be the progressive party."

The Republican administration was arraigned here tonight before the Tippecanoe club by former Gov. Myron T. Herrick, who charged it with gross extravagance, and that it had run the high tariff was necessitated by the immense revenues required by unbusinesslike government methods.

"Any department of the government could be run by a man who could run a bank or a factory at one-half the cost of the present system," said Herrick.

"There has been a great outcry about the high tariff, but that tariff was framed by men who knew they must have an enormous revenue to support the gross extravagance of the government. One of the greatest menaces confronting us today is the great bonded debts which, in time, must break down credit."

GOMPERS OPPOSED TO ROCKEFELLER FOUNDATION

Washington, March 24.—"Mr. Rockefeller asks to take in all trade union members as partners, at least in sharing the expenses of administering his foundation," says Samuel Gompers in the April issue of the American Federationist, in discussing the Rockefeller foundation.

"In his act of incorporation," Mr. Gompers continues, "he petitions that the personal property and funds of the foundation be exempt from taxation. By the amount of that exemption the taxes on all other men's labor and property must be increased, and the trades unionist of the country, as the leading organization of wealth creators, would carry a very considerable percentage of that additional burden."

Mr. Gompers says that Mr. Rockefeller might have confined the terms of his proposed act of incorporation to the one encompassing phrase that the foundation was to be employed "in the promotion of any and all the elements of human progress."

"The truth is," said Mr. Gompers, "we balk at accepting a partnership under our government with Mr. Rockefeller until we feel sure the civic relations in which we are already bound up with him, and which have made his heaped-up millions possible, are approximately correct. The starting point at which we may join hands with him and take precedence of All-Seeing Providence inevitably must be after revision, at least the grossest forms, today's inequitable economic relations in our country."

DECISION IN GAYLEY DIVORCE SUIT SATURDAY

Reno, Nev., March 24.—The suit for divorce brought by James Gayley, United States Steel company official, was submitted this morning on the cross-complaint of Mrs. Gayley. Gayley's complaint, which alleged desertion, was not read to the court and Gayley offered no testimony in his own behalf. He was called this morning by his wife's attorney and gave evidence relating to his residence in Reno.

Judge J. S. Orin, before whom the case was heard, ordered the case submitted and the testimony transcribed. A decision is expected Saturday, the court signifying this by remarks from the bench.

In her cross-complaint, Mrs. Gayley asks for a decree of divorce, the grounds of desertion, \$50,000 alimony, costs of suit and counsel fees.

HAD FOREKNOWLEDGE OF COURT DECISIONS

New York, March 24.—Bit by bit, there was unfolded at the fire insurance inquiry today the story of the career of William H. Buckley, the Albany lawyer, who for years was legislative agent for the fire insurance companies.

On the face of documentary evidence produced, Buckley was well-nigh invincible at Albany. If letters, entered on the records, contained statements of fact—and for the most part they were letters exchanged between Buckley and the late George P. Sheldon, who was president of the Phoenix Fire Insurance company of Brooklyn—Buckley's power with the legislature was well worth the money he admits he received.

Buckley's influence at Albany went even further, according to his own words. He was able to learn in advance a decision of the court of appeals, he said, and would keep Sheldon informed as to what was coming off in court.

have been hanging over the market, and if I could have learned previously what the decision was likely to be, there would have been money in this for all of us. Whenever anything like this is pending in Albany, it will always pay you to advise me. If you can, of the probable outcome, I will advise you.

Buckley replied the next day as follows: "I am sorry I did not know it would be of any interest to you to have information about the franchise decision. I told some of our friends two weeks ago what it would be, but I was advised from very important quarters that as long as the decision would be that the law was constitutional, it would not have much effect on the market, and I did not think it advisable to say much about it. If it had been the other way, you would have been advised, because I know of your interest in 'big gas' in the future. I will keep you advised."

TO DOMESTICATE AFRICAN ANIMALS IN AMERICA

Washington, March 24.—Introduction of the hippopotamus, the rhinoceros, the camel, the elephant, the springbok, the trebok, the dikdik, the coo-deo, the giraffe and other African animals into America was suggested as a solution of the problem of food supply by speakers before the house committee on agriculture today.

Capt. Fritz Lequesne, a Boer; Dr. W. N. Erwin, of the bureau of plant inquiry of the department of agriculture, and Maj. Burnham, who spent years in Africa and accompanied former Pres-

ident Roosevelt on part of his travels, argued in favor of the Broussard bill to import wild and domestic animals into the United States.

Such animals, according to the bill, must prove useful either as food or as beasts of burden. All the witnesses declared many of the animals in Africa easily could be raised in this country.

GALEN CLARKE DEAD.

Was Discoverer of the Mariposa Group Of Big Trees.

San Francisco, March 24.—Galen Clarke, the discoverer of the Mariposa group of big trees and for 20 years guardian of Yosemite valley, died tonight at the home of his daughter, Dr. Elvira Lee, in Oakland. He was 96 years of age. Clarke's death was sudden and unexpected. He had been confined to his bed for a day or two by a cold, and tonight his daughter found him dead in bed.

Clarke was an intimate friend of Joseph Le Conte, John Muir and John H. Muir. During the 20 years that he served as state guardian of Yosemite valley, the first to enter it in the spring and the last to leave it in fall, he met many of the notable persons who visited the valley, among them ex-President Roosevelt.

Clarke was born in New Hampshire in 1814 and came to California in 1833. He discovered the giant sequoias in 1857 while hunting. He was the author of a book on the big trees and several other works dealing with the early history of California.

The aged guardian of Yosemite will sleep in the valley in a tomb which he cut out himself in a huge granite rock within a stone's throw of the Yosemite falls, where he will be buried.

Besides Dr. Lee, Clarke leaves another daughter, Mrs. James Regan, who lives in Springfield, Mass.

ONE DOSE RELIEVES DYSPEPSIA, GAS, HEARTBURN OR INDIGESTION.

Indigestion and all other Stomach distress goes after taking a little Diapepsin.

You can eat anything your stomach craves without fear of Indigestion or Dyspepsia, or that your food will ferment or sour on your stomach if you will take a little Diapepsin occasionally.

Your meals will taste good and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes Belching, Bloating, a feeling of fullness after eating, Nausea, Indigestion (like a lump of lead in stomach), Bitterness, Heartburn, Water brash, Pain in stomach and intestines or other symptoms.

Headaches from the stomach are

absolutely unknown where this effective remedy is used. Diapepsin really does all the work of a healthy stomach. It digests your meals when your stomach can't. A single dose will digest all the food you eat and leave nothing to ferment or sour and upset the stomach.

Get a large 50-cent case of Pape's Diapepsin from your druggist and start taking now, and in a little while you will actually brag about your healthy, strong Stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and Gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

Should you at the moment be suffering from indigestion or any stomach disorder, you can get relief within five minutes.

Get the Choice Oranges of Our 5,000 Groves

We pick, pack and ship 60 per cent of the California Orange crop. These are of varying grades. The choicest selections are packed under the "Sunkist" label. To get the finest oranges you must insist on fruit that is wrapped in tissue paper with the word "Sunkist" printed thereon.

"Sunkist" Naval Oranges are Seedless.

They are delightfully sweet, juicy and firm. They are firm, thin skinned and deep tinted.

"Sunkist" oranges and lemons are picked by gloved hands, wrapped in "Sunkist" tissue paper, packed carefully so as to eliminate chances of becoming bruised or soft. No bruised fruit or fruit that fails to the ground is put in a "Sunkist" wrapper.

"Look for 'Sunkist' on the wrapper.

Ask your dealer for oranges and lemons with "Sunkist" label on the tissue paper wrapper. Oranges and lemons without "Sunkist" wrappers are not "Sunkist" brand. Be sure you get oranges and lemons in their original "Sunkist" wrappers.
